Teen WooHoo and Try for Baby in community beds (w/ support for random pregnancy)

1.3k – April 15, 2006

New Features and Enhancements

Support for breast-feeding teens (if Squinge’s breast-feeding mod is concurrently installed)

Bug Fixes

Pregnant sims are unable to use their own cars to travel to community or downtown lots
Perfume and cologne effects are not correctly washed away when using hot tubs
Adults cannot propose Make Out to teens in cars
Toddlers may be stranded on university lots if they are too slow in reaching the portal
Social worker attempts to collect children who have already moved from a university lot
Teens already queued to Go To School should not have option to Take To School...
Clothing booth Ask To Join.../Safe WooHoo missing on some international releases
Can’t throw wedding party on campus lots

1.3j – March 5, 2006

Bug Fixes

Teen sims forfeit entrepreneurial scholarship after advancing to the adult career track
Players without the University EP installed receive continuous birthday notifications
Drive/Carpool To School menus inconsistent for pregnant teens and non-pregnant teens over 18
YA sims do not receive diploma upon graduating (1.2.0.355 only)
YA sims no longer become alien pregnant after using dance sphere (1.2.0.355 only)

New Features and Enhancements

Compatibility with Maxis patch #2 (1.2.0.355) for Nightlife
Teen of any age (pregnant or otherwise) may now drive any other school-aged sim to class
Vastly improved move-out AI for University families (see User Guide)
Miscarriage memory strength reduced 50%

1.3i – December 27, 2005

Bug Fixes

Young adults may become permanently frozen or UI disabled while moving out of university
University baby abandoned on lot if sleeping or in motive distress
University baby should return home with first graduating parent, if present
University baby should return home with the last adult sim on the lot if no family is present
Animation anomalies may result if baby/toddler is moved out while being carried by another sim
Sims inadvertently deleted from the lot if another sim moves out while they are at work/school

1.3h – November 21, 2005

Bug Fixes

Missing snuggle interaction between teens and younger siblings
Incestuous interactions possible between family members on sofas, beds, and in cars
Birth control and fertility treatments not available as options when lot is full
Biological clock may offer only Put Away and Dispose as valid options for eligible/fertile sims

1.3g – November 17, 2005

Bug Fixes

Behavior reset when enabling fertility treatments; dialog does not display

1.3f – November 14, 2005

New Features and Enhancements

- Removed the 18+ restriction on teens moving to college because people were too stupid to read
- 5-speed Express Delivery gives precise control over a sim's pregnancy duration
- Increased unprotected random pregnancy odds from 10% to 15% in all Maxis beds
- Improved compatibility with Same Sex Marriage 1.2b by TwoJeffs
- Improved compatibility with No Family Size Limit by Doc Doofus
- Improved compression for memory efficiency

Bug Fixes

- A rare behavior reset may occur when a sim on fertility treatments enters her 2nd trimester
- A rare behavior reset may occur if the user uses the InSIMenator to impregnate a sim and it fails
- Use of I Want Twins With... on community lots may result in the delivery of unclaimed babies
- Some third party mods may cease to function correctly after uninstalling the InTeenimater
- Irregular behavior may result if a teen is promoted to the adult career track while on the job
- I Want a Baby/Twins With... is available for selection on menopausal adult females
- Birth control is unavailable to males when pregnant

1.3e – October 28, 2005

New Features and Enhancements

- Increased birth control failure rate and age-biased pregnancy minimums to 2%
- Birth control for males
- Teens automatically promoted to the adult career track upon turning 18
- Teens age normally while pregnant (age is no longer frozen)

Bug Fixes

- Sims do not dress for work
- Missing interactions between teens and adults (i.e. Hug... | Leap Into Arms, etc.)
- Birth control is 100% effective
- Safe WooHoo menu not displayed using clothing/photo booths or cars with birth control active
- Sims can never Propose... | Move-In to teenage Townies or NPC's
- Teens no longer age into YA's when living in dorms
- Teens no longer able to Ask Permission to Go Out
- Under rare circumstances, teens can transition into elders in the moments leading up to delivery

1.3d – October 13, 2005

New Features and Enhancements

- Compatibility with Maxis patch #1 (1.2.0.337) for Nightlife

Bug Fixes

- Pregnant friends cannot come home from school with teens if Back To School flavor pak installed

1.3c – October 10, 2005

Bug Fixes

Lifetime platinum sims may incur an unrecoverable mood/aspiration hit following a miscarriage
Wants do not reroll following a miscarriage
Unable to respawn Biological Clock after using fertility treatments or becoming pregnant
Missing interactions between teens and children

1.3b – October 7, 2005 (Nightlife Edition)

New Features and Enhancements

Teens over 18+ now have the option to Find Own Place or Move to College
Teens over 18+ are no longer required to attend public/private school
Pregnant teens can visit community lots
Finnish, Spanish, and Swedish Translations (courtesy of BlackAngel, Wilhelmina, and _yasse_)

Bug Fixes

Teen may become orphaned as an adult if Try for Baby fails to make them pregnant
Biological Clock's pregnancy functions on "selectable" NPC/Townies are inoperative
Show Pregnancy Meter no longer available on Biological Clock
Behavior reset during 2nd trimester transition if visiting NPC is impregnated w/ the InSimenator
Behavior reset in End Pregnancy if pregnancy controller is missing or dying
Normal map not applied to teen everyday maternity outfit
Straps of maternity formal display blotchy black lines on pregnant teens
Visible seam/separation between neck and head may appear during some animations
Visible contrast in skin tone shading between neck and body of pregnant teens
Show Pregnancy Meter should not be available if no pregnancy controller is found
Rejected Public WooHoo no longer results in "on the sly" pregnancy (Maxis bug)
Sims with young adult/custom hair styles may turn bald while transitioning into maternity clothing
Unga-chunga move-out dancing baby fix (Maxis Bug)
Young adults cannot *Propose* / *Move In...* to other young adults

1.2b – August 8, 2005

Bug Fixes

Behavior reset when engaged teens attempt to use the phone
Behavior reset if household teen interacts with an unrelated child while sitting on a sofa
Marriage should not be extended to "selectable" NPC's and visiting sims using the wedding arch

1.2a – August 5, 2005

New Features and Enhancements

Force miscarriages on teen and adult females using the Biological Clock

Bug Fixes

The use of Change Appearance on pregnant teens may revert them into non-pregnant nude attire
Intro screen displays 2nd and 3rd trimester teens as nude
Teens always change into their casual maternity clothes even if their current outfit is already valid
Incorrect twins odds may be in effect after a fertility-assisted pregnancy
End My Pregnancy can cause teenage sims to back float temporarily
Miscarriages may unexpectedly terminate during energy motive failure; sims can't wake up
Walk animations corrupted when transitioning to 2nd/3rd trimester during a miscarriage or abortion
Wardrobe hacks that expose the maternity clothing category do not show teen maternity outfits
Elders cannot propose engagement or marriage
Nude teens transitioning into the 2nd/3rd trimester do not acquire a pregnant belly
Nude teens are not displayed with a belly mesh on load
Simulation won't pause while in Buy/Build mode after using End My Pregnancy
Non-household members can dispose of Biological Clocks they do not own
Engaged teens can throw a wedding party even if underage
Nudity blur does not work on 2nd/3rd trimester teens and young adults

1.2 – July 8, 2005

New Features and Enhancements

Pregnancy belly mesh and complete custom maternity wardrobe for teens and young adults
Access to maternity formal wear for all pregnant sims
Adults and teens can go steady and/or enter into committed relationships with one other
Adults and teens can have multiple concurrent committed relationships

Breakup requirements eliminated and/or loosened for sims in committed relationships
Expanded privacy and nudity behaviors/reactions for teenage couples
Birth control option for all female sims via Biological Clock
Motive triggered miscarriages for pregnant females of any age
Biological Clock locator
Improved End My Pregnancy routine cleans up orphaned pregnancies
Expanded compatibility and interoperability with popular 3rd party mods
Improved University EP compatibility
French localization (Courtesy of iorhael)
German localization (Courtesy of Fabiani)
Danish localization (Courtesy of chipchapsims)
Portuguese and Portuguese-Brazil localizations (Courtesy of Wirapuru)

Bug Fixes

Pregnant teens cannot complete homework assignments
Propose... | Marriage not available to "selectable" NPC's or visiting sims
Biological Clock concurrently displays both End My Pregnancy and I Want a Baby With...
Selectable NPC's can dispose of Biological Clocks they do not own
Sims are unable to Propose... | Marriage/Move In on campus lots
Pregnant teens cannot use the wardrobe's Plan Outfit... option after purchasing adult clothing
Bathroom privacy not working for teens in committed relationships

1.1f – May 29, 2005

Bug Fixes

Pregnant teens occasionally fail to transition back into teenagers after their pregnancy ends

1.1e – May 26, 2005

Bug Fixes

Elder sims can Try for Baby; cannot carry pregnancy to term
Elder sims can become randomly pregnant after WooHoo; cannot carry pregnancy to term
Users **without** the InSIMenator installed cannot abort adult pregnancies with the Biological Clock

1.1d – May 18, 2005

New Features and Enhancements

Improved abort pregnancy routine on biological clock

Bug Fixes

Adult townies who were initialized with bad data get rolled back to teens after pregnancy
Adult townies who were initialized with bad data are unable to propose marriage or Try for Baby
Pregnancy meter is left enabled after teen transitions into adult; causes adults to become elders

1.1c – May 2, 2005

New Features and Enhancements

Bridging technology permitting other 3rd party mods to interoperate with the InTeenimater
Pregnant teens who become pregnant near their birthday are now given an extra day after delivery
Dutch localization (Courtesy of marjan)
Italian localization (Courtesy of Numenor and Barbara_T)

Bug Fixes

Pregnant teens cannot Propose... | Go Steady
Pregnant teens are incorrectly promoted into or can apply for jobs in the adult career track
Pregnant teens with less than 2 days in their life stage become younger after delivery
Pregnant teens becoming pregnant after 6pm on their birthday are orphaned as adults
Pregnant teens within 3 days of their birthday never get pregnant when Try for Baby is used
Sims continually give birth to twins after previously using I Want Twins With...
Inconsistent fertility behavior at the end of an adult female's life stage (Maxis bug)
Teen sims cannot Try for Baby on the new University edition bed styles (EP Edition ONLY)
No empty popup dialog after woohoo (Standard Edition ONLY)

1.1b – April 15, 2005

New Features and Enhancements

Increased odds of multiples if Triplets/Quads 2.1 is installed while fertility options are enabled
Pregnancy progression meter can now be toggled on or off via the Biological Clock.
Pregnancy progression meter is now updated every 5 to 6 hours, instead of once per trimester

Bug Fixes

I Want a Baby With.../I Want Twins With... should not be presented as choices if the lot is full
UI does not consistently show teen to adult age transition when pregnant (fixed again)
Rejected Woohoo occasionally results in "immaculate conception"
Popup windows are not automatically dismissed/timeout
Pregnant teens have the option to "Grow Up" in their 3rd trimester turning them into elders
Cannot remove Biological Clocks left behind by dead sim or sims that have moved out
Teens cannot propose "Go Steady" with their Adult lovers
Teens should not Ask Permission To Go Out of their married spouse
Teens should not propose Engagement unless they've first proposed Go Steady
Teens proposing Go Steady with adults do not animate
Adults should not Propose...|Engagement if a teen is already in a committed relationship
InSIMenator's Suspend Pregnancy fails if the InTeenimater is also installed

Beta 1.1a – March 21, 2005

Bug Fixes

Incorrect text localization on non English-US distributions of Sims 2

Beta 1.1 – March 19, 2005

New Features and Enhancements

Full compatibility with University Expansion Pack
New Biological Clock controls pregnancy and fertility dynamics of teenage and adult sims
Support for same-sex and male pregnancies via the Biological Clock
Pregnancy progression meter for teenage sims

Bug Fixes

Several sim-targeted actions missing from pie-menus (EP Edition ONLY)
Influence meters not adjusted when making or losing friends (EP Edition ONLY)
Young adults appear naked when pregnant (EP Edition ONLY)
Wardrobe behavior erratic with InTeenimater installed (EP Edition ONLY)
Teen's cannot propose engagement (EP Edition ONLY)
Breakups do not clear relationship flags (steady/engagement/marriage) Accelerated and aborted pregnancies should not incur a 3 day age penalty
Pregnant teens should not age until after giving birth
UI does not consistently show teen to adult age transition when pregnant

Beta 1d – March 4, 2005

New Features and Enhancements

Triplets and Quads mod by TwoJeffs is 100% compatible with the InTeenimater

Bug Fixes

Teens cannot Romantic Kiss their teen or adult lovers
Pregnant sims and NPCs who were pregnant before installing InTeenimater would age into teenagers after giving birth.
Adult females who became pregnant (by natural means) with the InTeenimater installed transition back into teenagers after giving birth.
Adult pregnant females only wear PJ's
Adult pregnant females do not get a belly, but get fat instead
Pregnant teens can Propose Marriage
Pregnancies initiated by an adult male w/ teen female results in a miscarriage

Beta 1c –February 23, 2005 (Public Beta)

Beta 1b – January 30, 2005 (Initial Release)
